SPRINGVILLE, ALABAMA -- Fontaine® Heavy-Haul, the innovative leader in the lowbed and extendable trailer Industry, hired Neil Robertson to be Director of Research and Development. He will report directly to Randy McGuire, President of Fontaine Heavy-Haul. "We're delighted to have Neil on our team; with almost 30 years in the trailer industry he brings a broad depth of experience to Fontaine Heavy-Haul," remarked McGuire. "He really understands this business from the ground up and has earned his reputation as an innovator and problem-solver," concluded McGuire.

"Beginning my career in the trailer business at 20 years of age—and holding just about every position you could imagine—has provided valuable insight into the problems facing customers today and the ability to focus the necessary resources on a solution. Previously Robertson served in engineering, design, management and ownership of trailer manufacturing companies throughout the U.K. He started his own trailer business in Glasgow, Scotland before immigrating to the U.S. in 2007. He is focussed on innovation and design and possesses the skills required to bring new products to market in a timely fashion. "One of the keys to success in this business is listening to customers, interpreting their wishes and delivering solutions on a tight time line," concluded Robertson.

Fontaine Heavy-Haul is the business unit of Fontaine Trailer that is focused on supporting lowbed and extendable trailer customers. Fontaine is the largest platform trailer manufacturer in the world producing a complete line of aluminum, steel and composite trailers for the flatbed, dropdeck, heavy-haul and military markets. Manufacturing facilities are located in Jasper, Haleyville and Springville, Alabama. Fontaine is a Marmon Highway Technologies/Berkshire Hathaway company. Marmon Highway Technologies (MHT) supports the transportation industry worldwide with a wide range of high-quality products and services.
