The innovative design is loaded with convenience features that make work easier. The 11° ramp angle makes it easy to load low ground clearance equipment. A rugged steel reinforced deck handles 25 tons in just 10 feet and features a clear deck length of more than 38 ft in the travel position. The full width heavy-duty tail hinge is the most durable in the industry with a super strong design that lifts 25,000 pounds to loading dock height. Dual controls are located on the side of the gooseneck at a comfortable height for easy access. A heavy-duty 18,000# winch with wireless remote is standard equipment and makes loading disabled equipment easier. Stow your gear in a generous locking storage compartment conveniently located on both sides of the gooseneck. A convenient fold-down step provides easy deck access. Options such as on-board digital scales and tire inflation systems can be added to your trailer for even greater convenience.

Fontaine is the largest platform trailer brand in the world offering a complete line of aluminum, steel and composite trailers for the flatbed, dropdeck, heavy-haul and military markets. Manufacturing facilities are located in Jasper, Haleyville and Springville, Alabama. Fontaine is a Marmon Highway Technologies/Berkshire Hathaway company. Marmon Highway Technologies (MHT) supports the transportation industry worldwide with a wide range of high-quality products and services.
