

NEW RENEGADE LXLN12

Hydraulic gooseneck mini-deck lowbed

RENEGADE LXLN12

LXLN12 Spec Sheet with drawings available on our website

Now available to quote via the Fontaine Dealer Website Configurator

The Fontaine Renegade LXLN12 features an industry leading 12" deck height, critical to maximize loads. This trailer also features a hydraulic removable "shaft & hook" gooseneck, which happens to be the fastest and most versatile in the industry—especially on uneven ground. By adding an upgraded 7-Position dual cam pawl to the gooseneck, the additional ride-height adjustments make this trailer truly adaptable and flexible to help clear obstructions.

The Fontaine Renegade LXLN12 is remarkably strong AND lightweight. With nearly 33' of open deck and 53' overall length, the LXLN12 weighs only 20,525 lbs. But in the mini-deck universe, the key difference maker is its exceptional box beam design featuring full width crossmembers on 18" centers. The twin box beams are not only the virtual backbone of the trailer, they also resist twisting and provide torsional stability. More importantly, both beams share the same centers as the gooseneck tower and gooseneck base, providing the LXLN12 with outstanding pulling and tracking capability.

How low can you go?

- 12" loaded deck height with 4" ground clearance
- 30 tons capacity in 16 feet and 30 tons in 20 feet with flip axle (GAWR and tire ratings determine legal payloads)
- Fastest, most versatile hydraulic removable gooseneck in the industry ... Connect or disconnect on uneven ground!
- Gooseneck dual cam pawl provides 7 ride-height positions
- 84" swing radius for ample maneuverability
- Sloped front ramp features traction cleats for easier loading and unloading
- Twin box beam design offers exceptional torsional stability
- The gooseneck tower, gooseneck base and twin box beams all share the same centers for outstanding pulling and tracking capability
- Full width steel crossmembers on 18" centers provide structural reinforcement for added strength and durability
- Generous 32' 11" clear deck length handles bigger loads for greater hauling versatility
- 5-Position rear ride-height control system with dump valve for operator convenience
- Air-ride suspension with automatic and manual controls
- LED lights, strobes, and D-rings are all standard to give you more trailer for your money
